Please briefly explain why you have given this response:

Comments:

Overall it has been a good learning environment, but in some areas it could be more organised and have more staff willing to show / teach things

1. Please consider the answers you have given to the 2 questions above.
2. Which practices you think need to **STOP** as they either compromise placement learning or patient care.
3. Determine which practices you think should **CONTINUE** as they have been beneficial to your learning or to patient care.
4. Add those activities or practices that you think should **START** as they could enhance placement learning or patient care.

STOP

List the practices you think should Stop

Comments:

Safe | Personal | Effective

CONTINUE

List the activities you think should Continue

Comments:

START

List the activities or practices you think should Start

Comments:

Comments that relate to care which compromises patient safety must be investigated further so we ask all students to please record their name so that if we need to contact you for some more information we can easily do this. We will be collating the feedback to share with divisional & department managers try to improve our services however individual comments will be treated sensitively.
